Eurodesk Malta Updates - Issue No. 12

Last Saturday, 19th July the European Union Programmes Agency in collaboration with Aгенzija Zghazagh held an activity entitled Youth meet Youth outside the Malta National Aquarium in Qawra.

The aim of this activity was that of having both Agencies collaborating together in order to promote and increase the visibility of the EU funding programme for education, training and youth Erasmus+. And to further encourage youth organisations to engage in projects that can be funded under the framework of this Programme.

For this activity the venue was transformed into a youth organisations' village having around 55 participating organisations, some of which are Youth in Action (YiA) beneficiaries. Through this initiative these beneficiaries were being given the opportunity to exhibit their works and projects

undertaken under the YiA funding programme and promote themselves to the general public.

This event was also supported by Eurodesk.

More photos of the activity, featuring the stands of the participating organisations can be found [here](#)

The European exchange programme for Entrepreneurs

Erasmus for Young Entrepreneurs

Malta Enterprise in collaboration with Stiftelsen Europa Institutet in Sweden are working together to facilitate exchanges for entrepreneurs between Malta, Sweden and all the other EU countries, within the framework of the Erasmus for Young Entrepreneurs programme.

Partly funded by the European Commission, this exchange programme offers new entrepreneurs the possibility to work with an experienced entrepreneur in another EU country. The exchange programme is Partly funded by the European Commission, this exchange programme offers new entrepreneurs the possibility to work with an experienced entrepreneur in another EU country. The exchange programme is particularly beneficial for those individuals who are thinking of starting or have just set up their own business, who are given the opportunity to acquire relevant skills whilst working with experienced owners of small and medium enterprises across Europe. On their part, the experienced entrepreneurs participating in the programme and hosting the budding entrepreneurs would benefit from fresh perspectives on their own business whilst also

getting the opportunity to cooperate with foreign partners or learn about new markets.

The programme acknowledges the fact that many founders of SMEs lack management, experience and other key skills required to succeed in today's highly competitive markets, as well as the fact that the vast majority of SMEs operate only in one country with limited possibilities for growth. Recognizing the importance of entrepreneurship for economic growth and job creation, it thus seeks to help new entrepreneurs acquire the relevant skills, whilst both new and experienced entrepreneurs would be expanding their European outreach.
